

SOWJANYA THATAVARTHI

Andhra Pradesh, India | Sowjanyathatavarthi2601@gmail.com | +91-9247700469 | <https://www.linkedin.com/in/sowjanya-thatavarthi-254a882bb/> | portfolio-swart-mu-14.vercel.app | github.com/SowjanyaT26

PROFESSIONAL SUMMARY

Computer Science Engineering student with experience in building AI-driven and full-stack solutions to solve real-world problems. Strong analytical and problem-solving skills with the ability to understand user needs, collaborate across teams, and deliver technology-driven solutions. Passionate about Product Management, Agile methodologies, and creating user-centric digital products that drive business value

EXPERIENCE

Research and Development Associate – Code Aurora

Nov 2025 – Feb 2026

- Collaborated with cross-functional research teams to analyze healthcare data requirements and develop AI-driven solutions for processing **1,000+ healthcare records**, improving decision-making efficiency by **30%**.
- Evaluated system performance, identified optimization opportunities, and contributed to iterative solution improvements, reducing query latency by **40%** through data-driven analysis

Machine Learning Intern – AICTE Edunet Foundation

May 2025 – July 2025

- Developed end-to-end machine learning solutions by understanding project requirements, preparing datasets, and building predictive models with **85%+ accuracy**.
- Managed code versioning and deployment workflows using Git and Github within an Agile framework, ensuring clean, reusable code throughout iterative development cycles across 5+ sprint iterations

EDUCATION

Shri Vishnu Engineering College for Wome

Bhimavaram, AP

Bachelor of Technology – Computer Science and Engineering(Cyber Security)

2023 – Present

GPA: 8.19/10

PROJECTS

QRx – A Smart Health Aid

grx-smart-health-aid.vercel.app

Tools: React, Typescript, CSS, Google Firebase, QR Server API, Vercel

- Designed and developed a QR-based digital health profile platform that enables users to securely store and instantly share critical medical information during emergencies, improving accessibility and user experience
- Collaborated on building secure authentication, real-time data management, and QR code integration using Firebase, delivering a scalable solution focused on reliability and ease of use

Water Quality Prediction System

waterqualitypredictionml.streamlit.app

Tools: Python, Pandas, Scikit-Learn, Streamlit, Html, Css

- Developed an AI-powered application to predict multiple water quality parameters, helping users assess water safety through an interactive and user-friendly interface
- Built an end-to-end machine learning pipeline covering data preprocessing, model development, and deployment, enabling accurate predictions and efficient decision-making

SKILLS

Product & Business: Product Management, Agile Methodologies, Scrum, Product Lifecycle, Requirement Analysis, User Story Mapping, Feature Prioritization

Programming & Databases: Python, Java, C, SQL, Firebase

Web Technologies: React.js, TypeScript, HTML, CSS, Streamlit

AI & Data Analytics: Machine Learning, Scikit-learn, Pandas, Generative AI, Prompt Engineering

Tools & Platforms: Git, GitHub, Vercel, VS Code, Firebase

Soft Skills: Analytical Thinking, Problem Solving, Cross-functional Collaboration, Communication, Stakeholder Management, Teamwork

HONORS & AWARDS

- Amazon Foundation For Excellence Scholar (2023–2027) – Received a 2 lakh scholarship for a 4-year B.Tech program and a Lenovo laptop from Amazon, recognizing academic excellence
- Technical Paper Presentation – Special Jury Prize (2024) – Won the Special Jury Prize for an outstanding technical paper presentation on “Cyber Crime and Protection,” demonstrating strong research and presentation skills in cybersecurity

CERTIFICATIONS

- [Salesforce](#) – Trailhead Agentblazer Champion (2026)
- [AWS Educate](#) – Machine Learning
- [Cisco](#) – Introduction to Modern AI
